

initi8

Talented Golang Engineer with 6+ years of Golang development experience.
Looking for a permanent role starting from Mid-January.

- 17 years of consistent success in large-scale enterprise development with Microsoft technologies, plus proven mastery of emerging full-stack technologies
- Exceptional expertise in Cloud Architecture (AWS and GCP), Virtualization (Docker), DevOps (ECS and EKS) and Security
- 6 years of experience with open source programming languages (Golang, Python, Java)
- Deep experience with high-scalability, performance and security systems
- Managed teams of up to 18 people
- Patient leader, productive collaborator and natural mentor
